

COASTAL PLAINS SPRING NEWSLETTER

Volume 7- April 2023

STUDENT SPOTLIGHT - LONG

Career options through Coastal Plains are a win. Steven Quintero, from our Long site, attended the 2023 Spring Klondike Career Day at Georgia Power's Savannah Operating Headquarters. This was a career exposure event for high school students. Steven enjoyed the experience and has decided that he wants to pursue a career as a lineman. He was glad that he was offered this opportunity by Georgia Power. Our Long site is located in Ludowici, led by Amy Rogers and Kathy Simmons, and has a current enrollment of 63 students.

SITE SPOTLIGHT- LOWNDES

We love hearing from our parents. Lowndes held their CPCHS Building Parent Capacity meeting in late February. Twenty-five parents gathered with faculty to discuss communication improvements between teachers and staff. Parents were encouraged to offer feedback on ways to make them equal partners with the school. Our Lowndes site is located in Valdosta, led by Kip McLeod and Jeff Shealey, and has a current enrollment of 192 students.

STAFF SPOTLIGHT - CAMDEN

Ms. Sherri Williams has been working with Coastal Plains since December 2021. She comes from an elementary background. Her favorite part about working at CPCHS is "I enjoy working with the older students and the relationships I have established with each one of them." Her students say, "She always makes sure I'm recognized for my work and progress". Our Camden site is located in Kingsland, led by Jed DuBose and Derek Chastain, and has a current enrollment of 193 students.
